

The background of the entire page is a photograph of a large industrial facility, likely a refinery or chemical plant, during a turnaround. A massive red lattice boom crane is the central focus, extending from the bottom left towards the top right. It is lifting a large, dark, cylindrical component. The facility itself is a complex of steel structures, including tall distillation columns, storage tanks, and an intricate network of pipes and scaffolding. The sky is a clear, bright blue. The Wyatt Field Service logo is positioned in the top right corner, featuring the company name in a bold, white, sans-serif font against a dark red rectangular background.
