SAFETY

“WYATT Field Service Company reached a milestone of being in business for over 100 years. Focusing on safe work practices and understanding that safety is of the utmost importance to our employees and customers, safety will continue to be a priority during 2024 and beyond.

WYATT Field Service Company is committed to regulatory compliance and providing and maintaining a safe work environment for our employees, visitors, customers, and the general public.

Incidents not only result in injuries, but also adversely impact jobs, moral, customer relations and public opinion. Preventing incidents is a primary responsibility of every WYATT employee and we continually strive for zero incidents in the workplace. Every employee is expected to support this safety policy for the benefit of all.”

VISION

To be the most trusted project partner for our oil, gas, petrochemical, and renewable energy customers by consistently delivering excellence – bringing together the knowledge, expertise, and skills of our people from across the WYATT network.

- ✓ **DELIVER ON PROMISES**
- ✓ **DEVELOP THE FULL POTENTIAL**
- ✓ **DO THE RIGHT THING**

WYATT Field Service was established in 1913 with a commitment to Safety, Innovation and Operational Excellence. As part of the CIC Group of companies, WYATT EPC was established in 2023 to expand on that commitment to provide engineering, procurement and construction services to industries served.

CIC Group are advocates for and custodians of the energy & industrial sector worldwide

We advance the interests of our clients and shareholders by constructing and maintaining facilities, minimizing downtime and ensuring reliability of operations

We are culturally customer focused and put the needs of our clients first at all times

WYATT EPC OFFERS FULL SELF-PERFORM CAPABILITIES

ENGINEER

- Engineering / Detailed Design
 - Process
 - Production Process
 - Utility Processes / WWT
 - Civil / Structural
 - Geotechnical Design
 - Mechanical Equipment
 - Piping
 - Electrical
 - Instrumentation
 - Control Systems
- Constructability
- Project Management / Engineering
- Project Estimating
- Cost Control
- Planning & Scheduling

PROCURE

- Global Sourcing
- Fabrication Shop Evaluations
- Requisitioning/Bid Conditioning
- Contracts Negotiations
- Subcontract Management
- Vendor Surveillance
- Expediting
- Logistics
- Supply Chain & Logistics
- Quality Assurance
- Inspection Services
- Vendor Document Control
- Warranty / Service Management

CONSTRUCT

- **Greenfield & Brownfield**
- **Up-Mid-Downstream**
 - Wellpads
 - Gathering Systems / Stations
 - Pump Stations
 - Compressor Stations
 - Valve Stations
 - Terminals
 - Metering Stations (Gas & Liquids)
 - Crude and Products Storage
 - Gas Processing
 - Gas Storage
 - Asset Retirement
- **Renewable Energy**
 - Solar Farms
 - Hydrogen Plants

Management)

WYATT EPC, based in Houston, delivers comprehensive services on small to mid-cap engineering and self-perform construction projects. Leveraging our U.S. affiliates and High Value Engineering centers, we optimize cost-effectiveness for our clients.

PROCURE

ENGINEERING/DETAILED DESIGN PROJECTS ✓

- Shop Fabrication
- Vendor Qualification
- Vendor Surveillance
- Equipment/Materials Sourcing
- Subcontract Management
- Expediting & Logistics

Procurement strategy is an integral part of any project; whether it's incorporated into our Engineering & Detailed Design or packaged with our Construction Services, WYATT provides a full suite of strategic procurement services.

CONSTRUCTION PROJECTS ✓

- Shop Fabrication
- Vendor Qualification
- Vendor Surveillance
- Equipment/Materials Sourcing
- Subcontract Management
- Expediting & Logistics

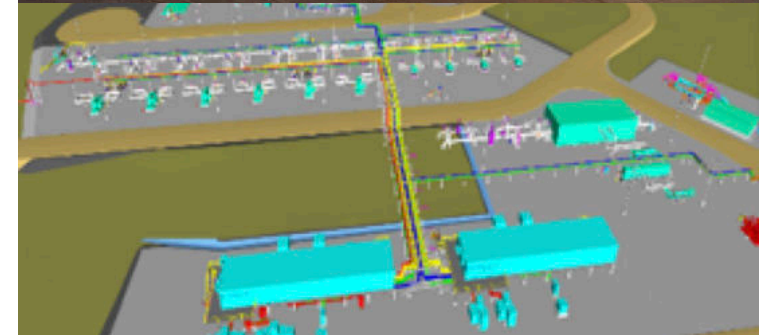

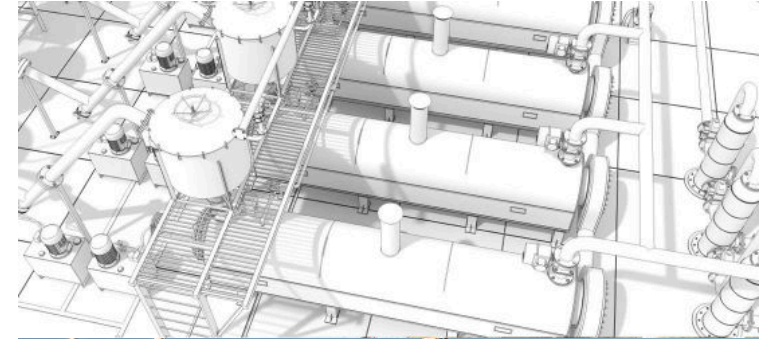

CONSTRUCT

Effective management leadership that has significant construction experience with multi-disciplined local crews to support the lifecycle of the project. WYATT EPC Construction crews average \pm 20 years of experience in onsite construction activities.

BROWNFIELD & GREENFIELD ✓

- Civil / Concrete Construction
- Structural Fabrication & Installation
- Pipe Fabrication & Installation
- Equipment Installation
- Insulation
- Scaffolding
- Start-Up & Commissioning Support
- Demolition
- Crane Rigging & Lifting
- Procurement
- Subcontract Management
- Planning/Scheduling
- Cost Reporting

QA/QC

PROVEN QA/QC PROCESS ✓

- >1000 Weld Procedures
- Weld Maps for all Work
- ASME Boiler and Pressure Vessel Code Q/A Program
- QA/QC Manager & QC Field Staff

CODE STAMP AUTHORIZATION ✓

- ASME Section I (S) & (A)
- ASME Section VIII Division 1 (U)
- ASME Section VIII Division 2 (U2)
- National Board Inspection Code (R)
